Your observe-only nature bingo

Choose a few boxes before starting. Look, point or describe. Leave everything in place; a shared observation can count for more than one box.

 □ **Leaf**	 □ **Tree**	 □ **Something round**
□ **Something rough-looking**	□ **Something green**	□ **Bird**
□ **Cloud**	 □ **Shadow**	□ **Fallen branch**

An adult chooses the place and conditions, sets the area and stays with the group. No collecting, touching animals, climbing or entering roads. Replace a box or stop when needed; you do not have to finish the sheet.

Make the hunt your own

A short shared look around can be enough. Use these prompts for a garden, permitted route or view from one comfortable place.

Adult setup

Our area and stopping place: _____

Boxes we will use: _____

Help / descriptions / a partner needed: _____

How to ask for a pause: _____

Choose replacements that fit the place

Our replacement observation 1

Our replacement observation 2

Our replacement observation 3

One thing we would like to draw

One thing we noticed: _____

Use drawings, spoken descriptions or pictures for a seated/window version. Adults keep the sheet and handle cutting if any is needed. Check relevant local/national guidance and signs for your chosen place. These are original illustrations, not species-identification diagrams.
